

CWATCH ON AZURE SENTINEL

Simple, comprehensive and accessible managed cybersecurity services

CWATCH SERVICES IN BRIEF

Extortion and ransomware, data theft, disabling sensitive business: the level of cyber threat is very high for companies of all sizes and industries.

CWATCH Services are Almond's **managed SOC / CERT services** based on **Microsoft Azure Sentinel** and **Microsoft Defender** technologies to anticipate, deploy active defense against ever-changing threats and information systems, and be there for you in the event of a major incident.

THE CWATCH SERVICE OFFERING

- Threat anticipation.
- Protect your information system.
- Early monitoring and detection of attacks.
- Incident handling to reduce the impact on your business.

THE CWATCH SERVICE OFFERING

ANTICIPATE AND PROTECT

- **Anticipate the threats** that concern you and prepare you.
- **Reduce the attack surface** and vulnerabilities.

Identified adversaries, prepared crisis management and good security posture.

DETECT ATTACKS

- CWATCH SOC based on **Azure Sentinel** cloud SIEM.
- **Monitor and detect attacks** at an early stage.
- **External monitoring** and vigilance.

Identify and break your adversaries' operations as soon as possible.

RESPONDING TO SECURITY INCIDENTS

- **CERT CWATCH.**
- **Respond to major security incidents** and restore your operations in the best conditions.

Investigate, contain & eradicate the threat and restore your operations.
