

# GDPR ASSESSMENT

Evaluate your level of compliance

You have initiated GDPR compliance actions internally or through service providers and now want to estimate where you stand in terms of compliance and risk?

The GDPR assessment enables you to evaluate your GDPR compliance maturity level and to reorient your action plan simply and quickly.

## OUR OFFER

### 1 500€ SELF ASSESSMENT

With Almond's **Security Rating** tool:

- A **status report** by answering a **30-questions** GDPR evaluation questionnaire, via Almond's Security Rating tool which enables you to measure, through the production of a score, your company's cybersecurity posture.
- The **result of your maturity level** via a score by theme and sub-theme.
- An **exportable prioritized action plan** presenting your current risk level that can be updated as you progress.

### 3 000€ MATURITY AUDIT

- In addition to the self-assessment questionnaire and the use of the Security Rating, **two 3-hour interviews** with your key contacts will enable the auditors to **challenge and deepen the answers, complete the audit with 60 to 150 control points** depending on your level of maturity and complete the **evidence associated** with the control points.
- **At the end** of the interviews and the documentary analysis, an **assessment report** presents the observations, the compliance findings, the identified risks, the recommendations and the evidence register. Each requirement of the audit standard will be assessed for compliance and the associated risk level.

## THEMES COVERED

Project management	Documentation	Mapping and register	Conversation period	Informations (mentions)	Individual rights and consent	Transfer outside the EU
Awareness and training	Contracts	Third Party compliance Third Party Audit	Data Breach	Privacy by design	Security	Audit

## THE BENEFITS
