

GDPR COMPLIANCE SUPPORT AND DPO ASSISTANCE

Achieve and maintain compliance

A 360° approach will enabling you to reach, at your own pace, the level of compliance adapted to your environment.

OUR OFFER

FOUNDATION: CHARTING THE COURSE TO COMPLIANCE

- Identify the personal **data processing** carried out thanks to a **detailed mapping**.
- Evaluate the actual **level of compliance** through in-depth **gap analyses**.
- Establish the operational and prioritized **compliance program**.

BUILD: GETTING INTO COMPLIANCE

- Implement the **compliance program** at the technical (IS security) and organizational (procedures, tools, processing compliance) levels.
- **Define** the governance, the actors, the bodies, the dashboards, the piloting tools; frame the new projects (Privacy by Design); structure the run and the audit.
- **Supporting the change**: building an effective awareness program and training the actors of your compliance.

AUDIT: ASSESSING YOUR COMPLIANCE

- **Audit GDPR compliance**: from governance to processing.
- **Audit the level of awareness** of the actors and their knowledge of the business processes.
- But also... Carry out crisis management **exercises, simulate CNIL controls on site...**

RUN: MAINTAIN COMPLIANCE

- **Maintain an adequate level** of compliance over the long term.
- **Structure the recurring stages** of compliance maintenance and control.
- **Optimize the cost** of compliance (tools, etc.).
