

PROJECT & PROGRAM MANAGEMENT

Rule your projects with Almond

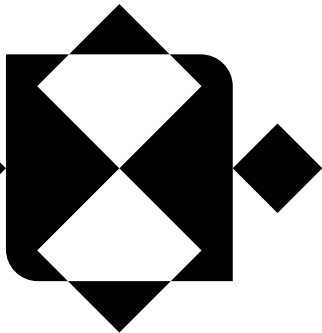

A proven approach to meet your **business needs, planning and budgets.**

Your projects or programs are intricate and involve many businesses and services.

→ Almond offers to establish suitable governance to your challenges and your structure to grant transparency and efficiency in the achievement of value creation and objectives.

You are trying to secure your schedule, control your costs and grant the customer satisfaction.

→ Almond offers at the project inception the implementation of management and risk monitoring tools, the assessment of the Return on Investment (RoI), and assistance with the change management.

THE TICKET TO PROJECTS SUCCESS

BUSINESS CASE & ROI ASSESSMENT

→ Assess projects gains, in particular **intangibles gains (quality, process, environmental, image, etc.)** holistic continuous improvement approach.

CONTROL PROJECTS INTERRELATIONS

→ Monitoring of programs with a **global approach** and **efficient tools** (dynamic resources allocation, projects alignment management, etc.).

A RISK-BASED APPROACH

→ Project **risk** management via a daily monitoring : **cartography, assessment, monitoring** and **mitigation** of risks.
