Course overview

An HDS (Health Data Hosting) Management System is built primarily on three standards: ISO 27001:2013, ISO 20000-1:2011 and ISO 27018:2014. It is enriched with requirements specific to the protection of health data. This course will provide you with knowledge of best practices for implementing and managing an information security management system and an HDS management system to effectively protect health data.

01 ■

Understand the challenges of an HDS management system to effectively protect health data

02 ■

Acquire the terminology and basic knowledge necessary to meet the requirements of ISO 27001 associated with ISO 20000

03 ■

Discover the best practices of information and health data security management and its articulation with risk management

Useful informations

Who should attend?

- Any person involved in information security management
- People who want to acquire knowledge of the main HDS management processes
- People who wish to pursue a career in HDS management

Entry Requirements

- Have basic knowledge of information security
- Have knowledge of data protection and health data

Method of assessment

1H closed book online certification exam:

- 50 multiple-choice questions

How and when to access

The participant is considered registered when:

- The prerequisites and needs are identified and validated
- The training agreement is signed

Registration requests can be sent up to 10 working days before the start of the training.

To go further

- ISO 27001 Lead Implementer Certification

Accessibility

Whether you are recognized as having a disability or not, making our training accessible to everyone is part of our commitment. If you need compensation or adaptation for the content, the supports, the "venue", the material used, the schedules, the rhythm, **we are at your disposal.**

Distance learning

Course Curriculum

- 10 hours of distance learning with the trainer + 4 hours of independent learning on the e-learning platform

Session 1	Session 2	Session 3	Session 4	Session 5
Health data hosting	Certification process	HDS: requirements and evidence	HDS - requirements and evidence	HDS certification
